

Village Hall Improvements

Longford Parish Council has formed a working group with the Village Hall Committee to look at the redevelopment/upgrading of facilities at the Longford village hall.

This has been made possible by the section 106 contribution being made available to the Parish Council by the developers of Whittington Park.

If you have any suggestions for this or any other facility you would like to see in the parish, please contact the Parish Council.

The Working Group expect to hold the initial meeting in the very near future and will be keeping the Parish updated on progress
